

Proven technology from the world's leader in pool manufacturing

Installation

Professional installation may be arranged through your local dealer. Most Lomart pools are installed in days not weeks as with other in-ground pools.

In-step Decking

When installing an In-wall pool step you will need to deck up to the step to allow a smooth transition from the ground to the step.

The wood deck option below demonstrates the transition to the step. Other decking material may give the same results.

In-ground Skimmer Installation

Prior to pool installation, installers need to consider the proper location of the skimmer and return to permit easy consumer access and conformance with any safety requirements. Before pouring the slurry mix it may be necessary to build an access space around the skimmer and return for maintenance and/or removal.

Dynasty Pool Program

Dynasty Pools are available with 4 foot deep snap fast beaded liners for easy and convenient replacement or with an expandable liner for 6 foot deep swim area.

Warranty

Pool & Frame Warranty: 35 years limited with 1st 3 years at 100% against manufacturing defects and balance prorated. Installation requires 6" sidewall above ground level.

Liner Warranty: 25 years limited with 1st 3 years at 100% against manufacturing defects and balance prorated.

Lifetime Warranty: Against seam separation.

Change of Design: All sizes, weights, measurements, illustrations and other specifications are approximate. Lomart expressly reserves the right to change or modify the design and construction of any product in due course of our manufacturing procedures without incurring any obligation or liability to furnish or install such changes or modifications on products previously or subsequently sold. Lomart Industries is in no way affiliated with any professional pool installer. Therefore, Lomart can assume no responsibility for errors in installation by the homeowner or said professional pool installer. If you have the pool installed by others, please supervise to be sure they comply with proper installation techniques as shown.

Important: Misuse of your pool may result in crippling injury and/or other dangers to life and health. Do not dive or jump. Do not use slides, diving boards, or any other platform or object which can be used for improper pool entry. Use only an above-ground swimming pool ladder to enter or exit your pool. It is your responsibility to secure your pool against unauthorized, unsupervised or unintentional entry. Always obey all safety rules. Remember, pool safety is everybody's responsibility.
